

NCWA

Northern California Water Association

Mission:

To advance the economic, social, and environmental sustainability of the Sacramento Valley by enhancing and preserving its water rights, supplies, and water quality.

Vision:

The Northern California Water Association (NCWA) is committed to advance the economic, social, and environmental sustainability of the Sacramento Valley by enhancing and preserving its water rights, supplies, and water quality for the rich mosaic of farmlands, cities and rural communities, refuges and managed wetlands, and meandering rivers that support fisheries and wildlife.

#SourcingOurSustainableFuture:

The Sacramento Valley is sourcing our sustainable future through responsible management of the essential resource that millions of birds, hundreds of thousands of fish, thousands of farms and millions of people all rely on-water.

**CULTIVATING A SHARED VISION IN THE
SACRAMENTO VALLEY FOR A VIBRANT WAY OF LIFE.**

Guiding Principle:

Water districts' and companies' purpose is to provide landowners a reliable, affordable supply of irrigation, municipal and industrial, and environmental water of suitable quality for reasonable use within its boundaries for as long into the future as water is needed for these purposes.

Sacramento Valley Banner:

Like a human fingerprint, California's Sacramento Valley is truly unique. On the leading edge of ecological and economical sustainability, it's also an *exceptional* place to live, work and raise a family. The Sacramento Valley joins together a world-renowned mosaic of natural abundance: productive farmlands, wildlife refuges and managed wetlands, cities and rural communities, and meandering rivers that support and feed fisheries and natural habitats. Through *efficient* management of the region's water resources, the Sacramento Valley will continue to provide what's *essential* to California's future success and prosperity. Nourishment and sustenance from the fields, habitats for fish and wildlife, recreation and a special quality of life—the Sacramento Valley is home to all of this, and more.

Guideposts:

The Northern California Water Association is an inclusive organization that values the perspectives, contributions, and experiences of all Californians. These values are reflected in our work. We have an active water leaders program where we seek diverse participation from leaders with both a passion and interest in Northern California water issues and making the Sacramento Valley a better place. NCWA has also been a leader in finding solutions to ensure safe, reliable and affordable water for all communities, including through our Drinking Water Solutions Network. As we move forward, we will continue to listen to, engage with, and learn from our fellow Californians.

EFFICIENT. ESSENTIAL. EXCEPTIONAL.
